Yes, that might help. I might be able to get a start next Monday afternoon (I literally cannot even log onto my computer after the Cntrl+Alt+Del and the government warning ... I can't use it 'locally' ... a very heavy, government-issued paper weight).

Hey guys,

I'm writing from my personal email account on my phone. I have not been able to log onto my EPA laptop here. I had downloaded both the rationale document and the comment-response document to my desktop. I've been in touch with EZ Tech (some very expensive calls home), but so far no success.

I'm just giving you a heads up that I may need an extension due to lost computer access (and what now seems like a stupid decision to print out the two documents to bring with me).
